

ELCU - Christmas Challenges 2023

As part of the Children's University programme which has just launched at Beam County Primary School, your child will be bringing home a challenge booklet over the Christmas holidays.

Children's University students need to gain a minimum of 30 hours in activities in order to graduate in the summer term. These challenges give your child the opportunity to gain 5 hours towards those 30.

The challenges are easy to complete at home, on your own, or with friends and family.

Please encourage and help your child to complete these challenges over the Christmas holidays and promote a love for learning outside of the classroom!
