

PE and Sport Premium Report 2024 to 2025

WORKING DRAFT | Finance reconciliation, delivery evidence and Year 6 swimming outcomes are required before publication.

Beam County Primary School received £20,840 in PE and sport premium for the 2024 to 2025 academic year. This report sets out the funding received, how it was spent, the impact on pupils' participation and attainment in PE and sport, how the improvement is being sustained, and the percentage of the Year 6 cohort who met the national curriculum swimming and water safety requirements. It is organised around the five key indicators for PE and sport premium spending. Figures and statements shown in square brackets have not yet been evidenced and must not be published until they have been confirmed.

Funding received

Measure	2024 to 2025
DfE allocation	£20,840 £16,000 plus £10 for each of 484 pupils in years 1 to 6 (January 2024 census)
Instalment 1 (seven twelfths)	Approximately £12,157, due 31 October 2024
Instalment 2 (five twelfths)	£8,683, received May 2025 as recorded on the school ledger
Eligible grant expenditure to 31 July 2025	£21,881.49
Unspent grant at 31 July 2025	£0

How the funding was spent

The table follows the five key indicators. The actions are those in Beam's 2024 to 2025 plan. Only activities that took place are reported.

Key indicator	Action in Beam's plan	Cost	Evidence of delivery and impact
1. All pupils engaged in regular physical activity	More structured active play, including wet play arrangements and pupil play leaders	£42	[Pupil voice; observation of social times; numbers of play leaders trained; participation lists showing the least active pupils]
2. Profile of PE and sport raised across the school	[Insert action, or state that none was funded]	£14,182.71	[Assemblies, celebration of success, pupil voice, School Council involvement]
3. Confidence, knowledge and skills of all staff	PE lead professional learning through borough meetings	£170.00	[Meetings attended and dates; what changed in teaching; staff confidence feedback]
4. Broader experience of sports and activities	Wider after-school sporting opportunities. Equipment and resources purchased May to June 2025:	£5,719.67	[Club registers, providers, sports offered, numbers and year groups taking part]
5. Increased participation in competitive sport	Intra-school and inter-school competition	£92.11	[Events entered, number of pupils, inter-house and inter-school results; entry fees]
Access for less confident pupils and those facing barriers	Monitoring of participation and access	£1675	[Group lists by SEND, disadvantage, gender and long-term medical condition; changes over the year]

Total eligible expenditure: £21881.49.

Impact on participation and attainment

The available 2024/25 records demonstrate continued investment in sporting participation, with significant expenditure on equipment, sporting resources, competitions and SEND transport. The evidence available indicates that Beam increased the capacity for participation through investment in additional equipment and targeted provision for girls, disadvantaged pupils and pupils with SEND.

Funding targeted at particular groups

Group	Funding targeted, provision and outcome [complete or state none]
Pupils with SEND	£2,000 – provision of transport and accompanying adults where necessary to ensure activities are accessible.
Pupils with long-term medical conditions	None
Girls	£5,000 - This represented an intentional use of the Sports Premium to remove barriers to participation and provide additional sporting opportunities for pupils who may otherwise have been less likely to engage.
Disadvantaged pupils	£5,000 – provision of kits and access to activities that had previously been difficult to participate in.

Sustaining the improvement

Beam's plan was designed to leave lasting capacity in three areas. Each statement below must be confirmed with school evidence before it is published.

- Pupil leadership: trained pupil play leaders who continue to lead activity at social times. [Confirm numbers trained and whether the role continues in 2025 to 2026.]
- Staff capability: professional learning gained by the PE lead through borough meetings, shared with colleagues. [Confirm what was shared and how practice changed.]
- Provision and relationships: after-school opportunities, provider links and equipment that remain in use. [Confirm which continue and how leaders check take-up.]

Year 6 swimming and water safety

Use the full 2024 to 2025 Year 6 cohort as the denominator for each requirement, from the most recent swimming assessment held for those pupils.

National curriculum requirement	Number meeting it	Percentage of Year 6 cohort
Swim competently, confidently and proficiently over a distance of at least 25 metres	68	86%
Use a range of strokes effectively, for example front crawl, backstroke and breaststroke	60	76%
Perform safe self-rescue in different water-based situations	15	19%

Year 6 cohort size: 79. Source of outcomes and assessment date: June 2025. Do not use zero to represent an outcome that was not assessed.

Top-up swimming after core lessons paid for from the grant: nil, with its impact: 23%

Verification and publication

PE lead review: Mr Purcell, June 2025.

Finance reconciliation: Ms Buchanan July 2025

Headteacher review: Ms T Whittington July 2025

Governor review and Chair's confirmation: Mr Lando Du Plooy July 2025

Date this report was completed: July 2025
