Oval Road North, Dagenham, Essex, RM10 9ED.

17th March 2025

Dear Parent/Carer,

Resources to Support Maths Learning at Home (Reception & KS1)

At Beam Primary School, we are committed to supporting your child's mathematical development both in school and at home. To help you engage with your child's learning, we would like to signpost some excellent resources that can be used at home to build confidence and fluency in maths.

White Rose 1-Minute Maths App (Reception & KS1)

This free app is designed to help children develop confidence in key number skills through quick and engaging activities. The app focuses on core skills such as subitising, number bonds, and simple addition and subtraction. It is perfect for short, daily practice to reinforce learning.

- **Who is it for?** Reception and KS1 children
- **How to access?** Available for free on the App Store and Google Play by searching *White Rose 1-Minute Maths*.

Numberblocks (Reception & KS1)

Numberblocks is a fun and educational TV series that introduces early number concepts through engaging animations and stories. It helps children visualise numbers and understand how they work in a meaningful way.

- **Who is it for?** Reception and KS1 children
- **Where to find it?** Available on BBC iPlayer, YouTube, and CBeebies.

Headteacher: Miss T A Whittington, NPQH, BA (Hons), PGCE
Chair of Governors: Miss S Ekmekci

How You Can Help

- Encourage short, regular practice sessions to keep learning fun and engaging.
- Celebrate progress and effort rather than just accuracy.
- Use real-life opportunities such as cooking, shopping, and telling the time to explore mathematical concepts naturally.

We appreciate your support in reinforcing your child's maths learning at home. If you have any questions or need further guidance, please do not hesitate to get in touch with your child's class teacher.

Best regards,

Mrs Neale
Maths and Science Lead
