6th October 2026

Dear Parent/Guardian,

Re: Two Forensic Days with Workshop

On Monday 2nd & Tuesday 3rd November 2026 Year 6 have been lucky enough to secure a Science company to hold a 'forensic workshop'. The children will find this very informative and exciting as part of the National Curriculum for science and history.

The children will be looking at ways to see how Science is applied in the 'real-world'.

- *There will be an explanation of the five different forensic evidence types, followed by a questions and answers session to cement learning.*
- *Looking at what makes fingerprints unique and making and comparing shoe-mark evidence.*
- *Using specialist equipment to catch burglars etc.*
- *The objective of these workshops is to examine modern forensic science techniques, coupled with introducing a structured, logical methodology for examining and evaluating evidence that is the cornerstone of science and history.*

A contribution of £8.50 is asked in order to cover the cost of the workshop to be paid by 2nd November 2026 via Parentpay. Item will be listed as **Two Forensic Days with Workshop 2026** on Parentpay.

Yours sincerely,

L Wilson
